TECHNICAL SKILLS

Programming Languages

Python | C | C++ | Javascript |

TypeScript | Java

Full-Stack Web development

Svelte | Tailwind | FastAPI |

Django | Flask

Databases

SQL (PostgreSQL) | Graph

Databases (Neo4J) | Vector

Databases

LLM

Ollama | LangChain

DevOps

Git | Docker | UML

DANIEL GARCIA VASQUEZ

COMPUTER SCIENTIST

PROFILE

I am a multilingual Computer Science master's student with over three years of experience in software development and academic research. My background includes full-stack development, automated testing, and applied AI. I am passionate about building smart, scalable systems with real-world applications and have been recognized with multiple academic awards and scholarships in both Colombia and Germany.

WORK EXPERIENCE

Clausthal University of Technology FEB 2022 - SEP 2025

Full-Stack Web Developer

- Supported the development of a customized search engine as a research assistant.
- Developed a responsive Svelte-based web interface for a research search engine.
- Conducted consistent refactoring to improve code efficiency.

Clausthal University of Technology Apr 2022 - Mar 2025

Software developer

- Refactored and ported an academic bug research framework to Python.
- Added new features and build configurations using Ant and Maven.
- Implemented EvoSuite for automatic test generation on ten Apache Projects.

Clausthal University of Technology Oct 2023 - Aug 2024

Student Assistant

- Student Assistant for the IT-Security and Computer Networks and Distributed Systems lectures
- Assisted the students with extra weekly lectures and exercises.

EDUCATION

Master in Computer Science

2023-2026

Clausthal University of Technology, Germany

Thesis: *From Text to Graph: Automatic Knowledge Graph Construction in Aviation Using Local LLMs*

International Research Exchange

2024-2025

Shibaura Institute of Technology, Japan

Research related to knowledge graph generation and ontologies

Bachelor of Science in Computer Science

2020 - 2024

Clausthal University of Technology, Germany

Thesis: *Similarity Analysis of Energy Datasets for Informed Dataset Selection and Learning*
